Medium impact on score

Sustainable Procurement

Medium impact on score

Environment High impact on score ● ↗ **70**/100

Environment | Policies High impact on score

● ↗ **75**/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Environmental policy on energy consumption & GHGs
Quantitative objectives set on energy consumption & GHGs
Environmental policy on air pollution
Comprehensive policy on a majority of environmental issues
Environmental policy on water
Environmental policy on materials, chemicals & waste
Quantitative objectives set on water

Improvement areas

Medium priority Inconclusive documentation for policies on customer health & safety
Medium priority Inconclusive documentation for policies on product end-of-life

Environment | Endorsements Low impact on score

● → **0**/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority

No conclusive information on endorsement of external initiatives or principles on environmental issues

Environment | Measures

High impact on score

100/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

On-site or off-site wastewater treatment facilities
Adoption of cooling systems with reduced or recycled water consumption
Use of waste heat recovery system(s) or combined heat and power unit(s)
Improvement of energy efficiency through technology or equipment upgrades
Control measures to prevent contamination of groundwater
Periodical analysis on the volumes of major air pollutants or ambient air quality monitoring (testing levels of PM, NOx, SO2, VOC or heavy metals)
Work processes or technologies implemented to mitigate emissions of VOC, SO2, NOx or heavy metals
Work processes or technologies implemented to mitigate emissions of dust and/or particulate matter
Work processes or technologies implemented to mitigate noise
Reduction of material consumption through process optimization
Environmental emergency measures in place
Actions for labeling, storing, handling and transporting hazardous substances
Training employees to safely handle and manage hazardous substances
Reduction of internal wastes through material reuse, recovery or repurpose
Internal sorting & disposal of waste according to waste streams
Other actions to manage water efficiency or wastewater discharge
Wastewater quality assessment
Actions to prevent emissions of atmospheric pollutants and other environmental nuisances (e.g. noise, odor, vibration, road and light)
Regular noise measuring campaign (site boundary noise measurements undertaken)
Specialized treatment and safe disposal of hazardous substances
Use of recovered input materials
Technologies or practices to recycle or reuse water
Purchase and/or generation of renewable energy
Training of employees on energy conservation/climate actions
Fuel switch to achieve higher energy efficiency and/or lower carbon emission intensity
Company-specific emergency preparedness and response procedure regarding customer health and safety
Packaging designed for easy dismantling and easy recyclability

Environment | Certifications Medium impact on score

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

ISO 50001 certified
ISO 14001 certified
61-80% of operational sites ISO 14001 certified

Environment | Coverage

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths and improvement areas

No recommendations yet

Environment | Reporting Medium impact on score

● → 25/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Reporting on total water consumption
Reporting on total weight of waste recovered
Declares none of the sites/operations located in or near biodiversity-sensitive areas (not verified)
Reporting on total gross Scope 1 GHG emissions
Reporting on total gross Scope 2 GHG emissions (market or location based)
Company reports to CDP
Reporting on total weight of hazardous waste
Reporting on total weight of non-hazardous waste
Reporting on total amount of renewable energy consumed
Reporting on total energy consumption
Total gross Scope 2 reporting value confirmed in supporting documentation
Total gross Scope 1 reporting value confirmed in supporting documentation

Improvement areas

High priority Insufficient reporting on environmental issues
Medium priority Report does not comply with all the mandatory requirements to be in accordance with GRI Universal Standards, GRI Core option or GRI Comprehensive option
Low priority No external assurance or verification of sustainability reporting

Low priority

Declares reporting on total weight of pollutants emitted to water, but no supporting documentation available

Environment | 360° Watch High impact on score

List of reports and complaints handled by Ningguo Ecological Environment Branch (February 2023) (CN)

www.ningguo.gov.cn | 07 Mar 2023

Ningguo Zhongding Sealing Parts Co., Ltd.'s vulcanization workshop and the second-stage vulcanization workshop are adjacent to the complainant's residence. There are two cooling circulating water towers on the fence. The vulcanization exhaust gas and cooling tower noise will have a certain impact on the complainant's life. Because the waste gas from the second-stage vulcanization workshop of the company can meet the standard discharge, but it still has an impact on the surrounding environment, our bureau has asked the company to make rectification. The company has formulated a

Low priority No conclusive information on endorsement of external initiatives or principles on labor and human rights issues

Labor & Human Rights | Measures High impact on score

● ↗ 100/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Provision of skills development training
Remediation procedure in place for identified victims of child labor, forced labor and/or human trafficking
Collective bargaining agreement on working conditions
Collective bargaining agreement on diversity, discrimination and/or harassment
Affinity or other support groups for minorities/vulnerable groups
Employee representatives or employee representative body (e.g. works council)
Formalized process in place to assess and document employee health & safety risks, considering change of operations / activities (e.g. change management)
Provision of protective equipment to impacted employees
Two-way communication system in place to facilitate employee voice regarding working conditions
Actions to provide adequate housing for employees
Equipment safety inspections or audits
Training of employees on health and safety risks and best working practices
Regular assessment of individual performance
Collective bargaining agreement on employees' health & safety
Employee health & safety risk assessment

Individual development and career plan for all employees

Actions in place to protect young workers

Health care coverage of employees in place

Employee satisfaction survey

Compensation for extra or atypical working hours

Employee stock ownership plan (not restricted to executive level)

Regular employee health check-up

Labor & Human Rights | Certifications Medium impact on score

● → 50/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

ISO 45001 certified

Improvement areas

Low priority Only 21-40% of operational facilities ISO 45001 certified

Labor & Human Rights | Coverage

● 75/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Supporting documents show a high level of coverage of labor and human rights actions or certification throughout company operations

Labor & Human Rights | Reporting Medium impact on score

● → 50/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Standard reporting on labor and human rights issues

Reporting on the percentage of women employed in relation to the whole organization

Reporting on average training hours per employee

Reporting on accident frequency rate

Reporting on accident severity rate

Improvement areas

Medium priority Report does not comply with all the mandatory requirements to be in accordance with GRI Universal Standards, GRI Core option or GRI Comprehensive option

Low priority No external assurance or verification of sustainability reporting

Sustainable Procurement | Measures High impact on score

● ↗ 100/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

- Regular supplier assessment (e.g. questionnaire) on environmental or social practices
- Performing suppliers on environmental and social issues have access to unique incentives (e.g. supplier awards, preferred supplier program, access to RFPs)
- Global supplier diversity program in place
- On-site audits of suppliers on environmental or social issues
- Integration of social or environmental clauses into supplier contracts
- Sustainability risk analysis (i.e. prior to supplier assessments or audits)
- Supplier sustainability code of conduct in place
- Capacity building of suppliers on environmental or social issues (e.g. corrective actions, training)

Improvement areas

- Medium priority** No conclusive documentation on the training of buyers on social and environmental issues within the supply chain
- Low priority** Declares conducting a formal assessment of suppliers' progress with regards to REACH requirements, but no supporting documentation available

Sustainable Procurement | Certifications Medium impact on score

● ↗ 50/100
